

“KITCHEN-PRO” is our very own tailor-made computer software. It allows our team of professional designers and advisors to design and create 2D and 3D drawings and images of your kitchen, bar, buffet, self-service counter, front cooking, washing and other areas, based on HACCP norms, latest technology equipment, ergonomic and other functional issues. The result is a perfect layout that guarantees the most efficient workplace as well as successful inspections by the authorities.

“KITCHEN-PRO” is yet another example of Virardi’s commitment to continuously develop and upgrade its products and services, for the benefit of our valued customers and prospects, alike.

By using "KITCHEN-PRO", Virardi provides you the most reliable and efficient solution, that will give new impetus and perspective to the development of your business and consequently of your profits.
